

# My Connected Community

## Create Your Own Online Community

My Connected Community provides training and online resources to enable community groups to establish a website, publish online, network with members, extend group membership and activities, and communicate with other communities of interest either down the road or overseas.

To achieve this, My Connected Community offers participating groups a variety of free, easy to use web-based services which they can use to communicate with group members and like-minded communities across the world. Groups participating in the program range from cultural and sporting groups through to special interest and support groups.

### Register Today

To get started, go to [www.mc2.vicnet.net.au](http://www.mc2.vicnet.net.au) now and register to join.

With My Connected Community you can....

- create your own online community
- chat with other people in your group
- participate in forum discussions with other group members
- join an online community of your choice
- create your own homepage
- visit recommended websites on your favourite topics
- interact with others with similar interests

You also get your own free webspace.

This enables you to:

- save your important files on the web such as photographs and newsletters
- access your documents from any Internet-enabled device
- move files from one PC to another
- host your own website

### Need Help?

- Call the VICNET Help Desk: 8664 7001 or 1800 629 835 - available daily until midnight
- Request help by email: [mc2@vicnet.net.au](mailto:mc2@vicnet.net.au)
- Attend a free training workshop
- Online Help is available

**My Connected Community is funded by the Victorian Government through Multimedia Victoria and coordinated by VICNET.**
