

The Garden

This year we have been very lucky to have some fantastic new garden beds at school thanks to John, Andrea, Leanne and Rose and her grandchildren Hannah, Dilon and Aiden. Our fantastic wicked garden beds have been excellent for growing vegies and herbs throughout the year. Thanks to Hollie for her help this year organizing different groups of kids to help in the garden. We have been doing things like:planting, weeding, watering, harvesting, cooking and eating many wonderful things. It has been lots of fun. My favourite thing about it all was cooking the food and eating it YUM!! If you get a chance pop in and have a look.
